

Project Update: January 2015

According to the project activities during October and December 2014 we completed printing of the promotion material. We also started lectures to the biology students at Faculty of Science and Mathematics Sarajevo University. In December 2014, I published article about wood ants in Bosnia-Herzegovina in the popular-science magazine "Fondeko". <http://www.fondeko.sarajevolive.com/38.pdf>
